Thank you to everyone we all work hard. Stephen working hard on posters, Pam on Coronation events. Job and family must come first. We are a family and we do not need special recognition if you did it. We are appreciative to everything everyone does. The negative is going to stop. We are going to place a positive twist on all communication. We may revisit Justice's \$5.00 snipe fund. We need to teach our new members. It is not about who does what but what we do together. Everybody will eventually find your place and your niche even when you come from a different court or organization. I want to say thank you for all the hard work you have done this year.

Discussion on tipping - Tipping limit or number of times a person tips. There are several

Whether you tip or not is your own choice –

If comments are made we should not dwell on them move out of it.

If you can not tip applaud. If money is issues than discuss it with a member and do not feel guilty for not tipping or donating. Let other audience members participate by us moving back and allowing others in. Do not crowd the entertainers. No one should feel guilty. Only do what you can do if sniping is observed then we need to pull aside the individual with board member away from the public to nip quickly. If out side of an event turn the issue over to the monarchs or a board member to help resolve.

Let them get the fist verse in before we walk up – if we need
